

PDP5

DESCRIPTION

Passenger Display Panel 5"

The PDP5 is a very slim five inch touch screen display unit for connection to AlsterAero's VDEU4K.

The PDP5 is intended to be used where limited available space necessitates a thin display e.g. for installation within deco panels, and where a solution with an integrated controller such as the AlsterAero PCU5 would not fit these restricted mounting space.

Together with the powerful VDEU4K, the PDP5 serves as a passenger control unit, but can be used as an area control panel as well.

FEATURES

- compact size
- high display resolution
- very slim housing
- integrated cable harness
- power supply from VDEU4K
- easy click-in mounting hardware

OUTLINE DRAWING

dimensions are millimeter (mm)

QUALIFICATION

- DO160
